Cedar Grove Virtual Neighborhood Watch

Description: The Cedar Grove Virtual Neighbor Watch (**C.G.V.N.W.**) is a modern version of the traditional neighborhood watch where groups were formed for the purpose of a crime watch with the goal of reducing the opportunity for crime. The purpose of the C.G.V.N.W. is to organize, otherwise stand-alone, residential and commercial surveillance systems into a readily accessible data base, forming a virtual 24/7 neighborhood network of systems. The registration is confidential and the data base is accessible only by police. The existence of the C.G.V.N.W. is designed to be a crime deterrent and a post incident investigative tool. The C.G.V.N.W. program is sustainable, it is 24/7, and it's a method of neighbors joining together with police to combat crime.
